

# December Round Up From DevX

**2022**  
Volume 19

2021 was the year when everyone thought “This will be my year” and it did turn out that way as well. But the story was a little different for us, at DevX. We spent the latter half of the year planning and preparing for some big moves.

You, our esteemed community has been with us throughout our journey of navigating through the curve balls the pandemic brought.

In the last few months, the pace picked up, behind the curtains we were busy bringing new ideas to life, new workspaces to live.

One such project was launched on the New Year’s Eve party. We launched one more centre in Ahmedabad. But that was just a steppingstone to the road we are paving.

# Christmas-y Vibes

## Festoon the Tree

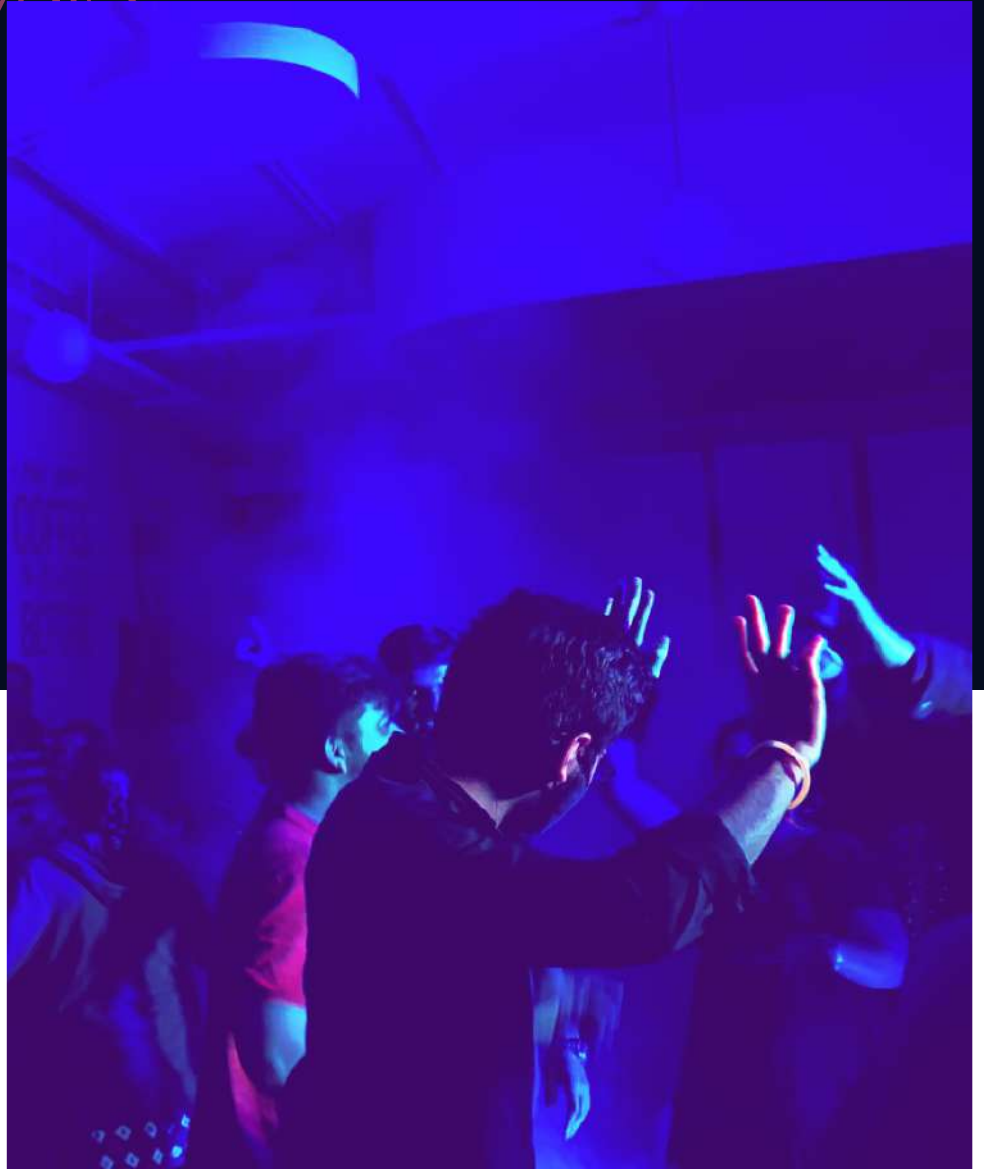

### Volume 19

The party land at DevX might have been quiet for a while now, but we definitely cannot miss the Christmas celebration.

We got together with our community members to celebrate the festival with a twist. The game was to “Festoon the Tree” i.e., Decorate the tree.

The task was to pick a partner, one player of the playing team will be blindfolded, while the other partner will guide them to “Festoon the Tree”.

The game was followed by gift distribution to the winners.

# Wrap-up and Roll

## Volume 19

Did we mention a DJ Party with some amazing appetizers and drinks? No. Oh, we should have. That's how we welcomed the new year at DevX.

For New Year's Eve, our community members were dressed up in Red and Black, the theme for the night.

This time the party was conducted at a brand-new venue, our newest workspace addition.

Taking a tour of the new workspace, our community members loved the vibe of the space.

# The Welcome Party

Volume 19

Welcomes are always warm and sweet. But at DevX there's always a little twist. We welcomed our new client with a sweet celebration and an enthralling Pani puri challenge.

Because everybody loves a few bites or rounds of Pani-puri.

The task was to eat the maximum number of Pani-puri within a very limited time. The participants stood up to the mark, giving a tough competition to their peers.

Synopsis

The company's current portfolio comprises over 3.93 lakh sq ft space with 4,500 seats across 12 centers in seven cities. DeVX is also looking to make foray into international markets with at least two centers totalling 40,000 sq ft in Dubai and either Singapore or Chicago in the next one year.

Co-working culture in India is growing extensively and new centres are coming up in smaller towns and cities, the industry is expected to grow by another 50 million square feet by the end of 2023.

Flexible office space provider [DeVX](#) is planning to add managed office spaces spread over nearly half a million sq ft across 8 new centers over the next one year in a bid to double its portfolio.

The company's current portfolio comprises over 3.93 lakh sq ft space with 4,500 seats across 12 centers in seven cities. DeVX is also looking to make foray into international markets with at least two centers totalling 40,000 sq ft in Dubai and either Singapore

Popular in Industry

1. ANIL to be Adani Group's vehicle for new energy business

2. Over five lakh nights booked by people with OYO for New Year celebrations, says CEO

3. Coming to India? Be ready to stay at home for a week

4. 'Ocean battery' targets renewable energy dilemma

In his conversation with Economic Times; Mr Umesh Uttamchandani discussed, in brief, the future expansion plans at DevX, and how the future of work is reshaping. The expansion plans also include setting up new workspaces across the globe, with 5,00,000 sq. ft. across 8 new centres in India and another 40,000 sq. ft. internationally over the next year.

# Accel-ing the Innovations

# #FundingAlert

We at DevX Venture Funds have specially designed a #D2C Accelerator Program called "ToRQ" as we strongly anticipate the next wave in growth to come in ventures in that space. The program provides a hand-holding approach along with initial funding for aggressive growth and customer acquisition. We have also partnered with a few stakeholders and tech companies who can help the start-ups in our program to accelerate through their solutions.

Though sector agnostic, our investments so far are largely into Fintech, SaaS, Healthcare, PropTech, AgriTech and DeepTech. With DevX Venture Fund we are investing in early stage tech-enabled B2B startups to accelerate growth and unleash true potential.
